DRAFT — to be reviewed by a licensed attorney before first use. Version 1.0-draft. Not yet in effect.

Terms of Service Privacy Policy Service Agreement

Terms of Service

Version `1.0-draft` · Effective date: [EFFECTIVE DATE] · Last updated: October 11, 2026

> **Plain-English summary.** We build and run AI tools for small US businesses, remotely from Israel. These Terms cover our website, the questionnaire, the client portal and the demo. Paid work is also covered by the Service Agreement and your written Quote. We build with Claude, Anthropic's AI model. We are not affiliated with or endorsed by Anthropic.

1. Who we are

"We", "us" and "our" mean Lavi Entrepreneurship & Management (Meir Lavi) (Israeli sole proprietorship (Osek Murshe)), doing business as AI Lab Pro, with its address at 29 Yigal Alon St., Herzliya, Israel. We provide our services remotely from Israel. Contact: support@ailabpro.co.
"You" means the business, and the person acting for it, that uses our website, portal or services.

2. What these Terms cover

- Our website and landing pages, including the chat demo.
- The online questionnaire, your written Quote, and the client portal.
- The services we deliver (for example the Missed-Call AI Receptionist and business websites). For paid services, the Service Agreement and your Quote also apply. If they conflict, the order is: (1) your Quote, (2) the Service Agreement, (3) these Terms.

If you hired us through Upwork, the Upwork Terms of Service also apply to payments and disputes handled by Upwork.

3. Business use only

Our services are for businesses, not for personal or household use. You confirm that you are at least 18 years old and have authority to bind your business.

4. Your account

You sign in with an email code or a third-party sign-in (for example Google). Keep access to your email secure. You are responsible for activity in your account. Tell us right away if you think someone else has access.

5. The demo

The chat demo on our website uses a fictional business. No real booking is made, no real message is sent, and nothing you type is a request for service. Do not type personal or sensitive information into the demo.

6. Quotes, prices and payment (summary)

- Prices are fixed, in US dollars, and shown in your written Quote. A Quote is valid for 14 days.
- Setup fees: 50% deposit to start, 50% before go-live. Monthly fees start on the go-live date and are billed monthly in advance.
- We accept payment through the methods named in your Quote (for example Upwork, PayPal or bank transfer).
- Full details are in the Service Agreement.

7. Refund policy

- **30-day satisfaction guarantee** (AI Receptionist and the Receptionist + Website bundle): If you are not satisfied within 30 days after go-live, tell us in writing (email or the portal) and we will refund the setup fee you paid and switch the AI line off. Monthly fees for the period used are not refunded. This applies to the AI Receptionist and the Receptionist + Website bundle, not to the website on its own.

- **Setup deposit:** fully refunded on request within 7 days of payment, as long as you have not completed the setup (access) checklist. After you complete the checklist, the deposit is non-refundable, except under the satisfaction guarantee above. For the website on its own, this deposit rule is the only setup refund, because content work starts right away.
- **Retainer plans** (Care, Growth, Studio): if you cancel within 7 days of your first retainer payment, we refund 75% of that first payment. After that, retainer fees are non-refundable.
- **Monthly service fees** (for example the receptionist or website plan): cancel anytime with 30 days' notice. We do not refund partial months or months already used.
- Payments made through Upwork are refunded through Upwork.

8. Acceptable use

You must not use our services to:

- send marketing or promotional text messages, or make outbound calls with an artificial or AI voice;
- send messages to anyone who has opted out (replied STOP), or to numbers you obtained without the consent the law requires;
- collect protected health information, payment card numbers, Social Security numbers or similar sensitive data through the AI;
- break any law, including telemarketing, call-recording, consumer-protection and privacy laws;
- impersonate anyone, mislead callers about who they are talking to, or hide that they are talking to an AI when asked;
- try to break, overload, reverse-engineer or get around the limits of our systems or the AI.

We may pause the AI or suspend an account that breaks these rules. We will tell you why.

9. Not an emergency service

The AI receptionist is not a 911 or emergency service. When a caller describes an emergency, it tells them to call 911 and alerts you, but it cannot dispatch help. Do not rely

on it for life-safety situations.

10. AI output

The AI can make mistakes: it can misunderstand a caller, write a wrong detail, or book a wrong slot. You can review every call, text and booking in your portal and pause the AI at any time. You are responsible for decisions you make based on AI output. We do not promise any business result (for example more leads, jobs or revenue).

11. SMS program terms (for people who receive our texts)

This section is for callers of our client businesses who receive text messages from a business's AI line.

- **Why you get texts:** you called the business, and the call was missed or ended. The business sends a text-back about your request, a booking confirmation, or a reminder for a booking you made. These texts are informational, not marketing.
- **Message frequency** varies, usually 1 to 5 messages per request. **Message and data rates may apply.**
- **Opt out:** reply **STOP** (or CANCEL, END, QUIT, UNSUBSCRIBE) at any time. You will get one confirmation and no more messages from that business line. Reply **START** to opt back in. Reply **HELP** for help, or contact support@ailabpro.co.
- Carriers are not liable for delayed or undelivered messages.
- Mobile phone numbers and SMS opt-in information are not shared with third parties or affiliates for marketing or promotional purposes. See our Privacy Policy.

12. Intellectual property

Our website, templates, software, shared code and documentation belong to us. Ownership of work we build for you is set out in the Service Agreement: in short, what we make specifically for you transfers to you when you have paid in full, and we keep our reusable templates and code, which we license to you. Content you give us (logos, text, photos, data) stays yours; you give us permission to use it only to provide the services.

13. Third-party services

Our services connect to tools run by other companies, such as Twilio, Google, Calendly, Zapier and your CRM. Their terms apply to your use of them. We are not responsible for their outages or changes.

14. Disclaimers

Except as stated in the Service Agreement, our website, demo and services are provided "as is" and "as available". To the extent the law allows, we disclaim all implied warranties, including merchantability, fitness for a particular purpose and non-infringement. We do not claim that our services make you compliant with any law or regulation; compliance with laws that apply to your business is your responsibility.

15. Limitation of liability

To the extent the law allows: (a) our total liability for all claims related to our website and services is limited to the amounts you paid us in the 12 months before the event that caused the claim; and (b) we are not liable for indirect, incidental, special, consequential or punitive damages, or for lost profits, lost revenue, lost jobs or lost data.

16. Indemnity

You will defend and hold us harmless from third-party claims that arise from your content, your instructions to us, your messages to your customers, or your breach of these Terms or of the law (including telemarketing, SMS and call-recording laws).

17. Governing law and disputes

These Terms are governed by the laws of **[GOVERNING LAW — proposed: the State of New York]**, without regard to conflict-of-law rules. Any dispute will be resolved by binding arbitration conducted online by **[ARBITRATION PROVIDER — to be chosen by attorney]**, in English, by a single arbitrator. Either party may bring an individual claim in small-claims

court instead. [ATTORNEY: confirm venue, provider, class-action waiver and opt-out window.]

18. Changes and termination

We may update these Terms. We will post the new version here with a new date and, for material changes, email active clients at least 14 days before they take effect. You may stop using our services at any time; paid services end as described in the Service Agreement.

19. Not affiliated with Anthropic

We build with Claude, an AI model made by Anthropic, PBC. We are an independent business. We are not affiliated with, endorsed by or sponsored by Anthropic. "Claude" and "Anthropic" are trademarks of their owner.

20. Contact

Lavi Entrepreneurship & Management (Meir Lavi) · 29 Yigal Alon St., Herzliya, Israel · support@ailabpro.co. We reply to messages within one business day and send written quotes within 1 business day of a completed questionnaire. Business days are Sunday–Thursday, Israel time.
